

DP200-IB

Second generation USB sanitation terminal. Improved performance, support for USB 3.0, increased resilience to USB-kill attacks and enhanced virtual separation has been added in the second generation.

The terminal is a security platform which can run different types of security utilities. Choose from several functions that are pre-installed into the platform, including multiple Anti-Virus engines, Content Disarm and Reconstruction (CDR), whitelist for file types as well as for attached USB hardware.

| PRODUCT INFORMATION | |
|----------------------------|---|
| Chassis | |
| Case | Bent sheet metal |
| Front | CNC milled Aluminum |
| Display | LCD - monochrome 2x16 |
| Security | |
| Write protection | Software |
| USB blocking | Hardware |
| Administration | Hardware & Software |
| Antivirus engines | Multiple |
| CDR | Optional |
| Operating system | Virtualized Linux |
| CPU | |
| intel Core up to | i5 gen 12 |
| Memory | |
| RAM up to | 32 GB |
| Interfaces | |
| USB | 3.0 Type-A |
| Ethernet | N/A |
| Size | |
| Dimensions (W x D x H) | 180 x 328 x 104 mm |
| Temperature Range | |
| Operational | 0°C to 40°C (relative humidity 20-90%) |
| Storage | -20°C to +60°C |
| Power | |
| AC Adapter | 19V, 4.74A, 90 W |
| Standards | |
| CE | EN 55024:2010 (A1:2015), EN 61000-6-3:2007(A1:2011) |
| REACH | Yes |
| Tempest | Optional Level A |
| Warranty | 1 year |
